

We protect what we love. Education is vital to understanding which leads to conservation.

The Shark & Dive Tour is for conservation awareness and diving experience furthering the student's knowledge and skills.

THIS LEARNING EXPERIENCE

- Is a great follow up of the Shark Life Conservation course and gives the students the opportunity to see and experience the grace and beauty of these misunderstood animals first hand. Sharks are a vital part of the ecosystem and they need to be protected.
- This tour is also about raising awareness about the plastic pollution problem the world is currently facing and the impact that it has on the ocean and environment.
- The students will gain valuable diving experience.

Sodwana Bay

Is located on the east coast of South Africa, in one of the most unique and unspoiled parts of the world. Situated in the iSimangaliso Wetland Park and the Maputaland Marine Reserve.

Aliwal Shoal

The Aliwal Shoal is a rocky reef which is the remains of an ancient sand dune approximately 5 kilometres off the coast of KwaZulu-Natal, South Africa. Aliwal Shoal has a diverse marine life including large predators and is popular as a recreational scuba diving destination. The Shoal is known especially for its abundance of Grey nurse sharks (known locally as ragged tooth sharks or "raggies") between July and November when the sharks congregate there to mate.

Madagascar

Madagascar is a huge island nation off the southeast coast of Africa. It's home to thousands of animal species, such as lemurs, found nowhere else, plus rainforests, beaches and reefs. Discover the Marine Megafauna of Madagascar on this tailor-made holiday and explore the islands and islets around Nosy Be whilst swimming with the inhabitants of these tropical waters. Madagascar is a perfect diving destination to explore lively coral reefs and experience a land of biological and cultural richness. A rounded holiday of excitement both in and out of the ocean.
